BUSINESS FROM THE FLOOR:

Ordinance 25-01 – Solar Farm/Garden Change from Conditional Use to Interim Use – The public hearing for the amendment to change a solar farm/garden property use from conditional use permit to interim use permit was held at the Joint Planning Board meeting previous to this meeting. Supv Heim noted this change was brought forth by concerned residents questioning whether the solar farm/garden use could be terminated. With an interim use permit, an expiration date can be placed on the property. He stated the Traut-MN Solar Energy interim use permit will have a 45-year termination date. The interim use permit process must begin 12 months after the approval of the interim use permit. The property owner may request an extension should it take longer than the 12 months. SUPV WESTERLUND MOTIONED TO APPROVE ORDINANCE 25-01 CHANGING THE SOLAR FARM/GARDEN PERMIT FROM A CONDITIONAL USE PERMIT TO AN INTERIM USE PERMIT, SECOND BY SUPV WAGNER, MOTION CARRIED 3-0.

Kevin & Deborah Traut – Minnesota Solar LLC Farm Interim Use Permit Application – Chrm Heim discussed several items with Jeff Bertch of Solar Stone/Minnesota Solar LLC which will need to be completed and discussed prior to the issuance of the solar farm interim use permit. Mr. Bertch stated the power lines will be buried to allow for the swing irrigation system owned by Roys & Mary Barron-Traut. A suggestion to have a glare study completed but it was deemed non-essential and caused no concern since the panels are made of a non-reflective material. Any drainage issues will be looked at by the township engineer along with the township attorney drafting a document relating to both the drainage and electrical power issues.

Benno Kuhl, 348 Pine Ridge Road – Mr. Kuhl questioned whether the screening plan will also contain a maintenance plan within it. Chrm Heim stated a screening plan will be drafted by the Solar Stone Company to be approved by the Town Board. When that is on the agenda, Chrm Heim will ask that notices be sent to the surrounding property owners.

Also discussed were the decommissioning & maintenance of the solar panels be addressed in the permit along with a bonding clause that would include an inflation clause in order to cover future costs of maintaining the panels and area.

Dennis Molitor – Sartell Historical Society – Township Attorney Troy Gilchrist drafted a rental

agreement for the Sartell Historical Society to rent a 200 square foot area of the town hall's basement to store items the historical society presently have in a storage unit that is not climate controlled. Mr. Molitor stated he has received approval by members of the historical society with a couple of provisions. The first provision is they would like to pay the rental fee of \$50 per month in 6-month intervals. They will also purchase the required 10-lb fire extinguisher for the basement and the township will provide a blue tooth nest system fire alarm as well as placement of a smoke detector in the basement. It was the consensus of the board to enter into the rental agreement with the Sartell Historical Society, having Atty Gilchrist change the items discussed. Mr. Molitor was given a key in order for them to move items out of their storage unit prior to the end of April.

Diane St. Sauver, 341 Pine Ridge Road – Driveway Enlargement – Supv Heim received an email which contained a diagram of the St. Sauver's plans to enlarge their driveway. The concern was whether they would exceed the impervious coverage on their parcel. Supv Heim calculated the square footage of all buildings, sidewalks and the new driveway and they fall below the allowed 40% impervious coverage. It was the consensus of the town board to allow the driveway reconstruction. Supv Heim will email Ms. St. Sauver with the information and approval to go ahead with the driveway reconstruction.
