

Pine Ridge Road – Small potholes at 394 & 341 Pine Ridge Rd – Approximately 3 bags of cold patch  
– This road could be considered for blow patching since many of the potholes are shallow.

Stork Drive – Drainage area is working well with the number of recent rains. Supv Omann viewed the area earlier and the water was even with the road way, but now has all drained.

30<sup>th</sup> St. No – Buckthorn bushes & small trees need to be removed. Have estimates to either eradicate or cut and have stumps ground out, as soon as possible.

3157 & 3275 Riviera Road – Small potholes – Approximately 3-4 bags of cold patch. This road could be considered for blow patching since many of the potholes are shallow.

326 22<sup>nd</sup> St. – Small potholes – Approximately 2 bags of cold patch.

321<sup>st</sup>/Foley Street – Small potholes – Approximately 1 bag of cold patch.

***The following are areas that need to be addressed and considered:***

**Crack Seal**

- 35<sup>th</sup> Street – Overlayed 2 years ago – 1<sup>st</sup> round of crack seal due.
- Pinecone Road
- Rosewood Road

**Blow Patching**

- 7<sup>th</sup> Avenue North – Many of the potholes are shallow – blow patching possibility.
- Pine Ridge Rod – Shallow potholes – blow patching possibility.
- 30<sup>th</sup> Street & Riviera Road. Intersection and parts of 30<sup>th</sup> are deteriorating. Kamco was to have overlay mix, 75 feet north & west at this intersection, but did not.

**Overlay**

- 30<sup>th</sup> Street & Riviera Road -

**Fog & Center Lines**

- 322<sup>nd</sup> Street (Work with the City of St. Cloud)
- 30<sup>th</sup> Avenue
- Riviera Road
- 27<sup>th</sup> St. North – East side of County Road 1.

**Tree & Brush Trimming or Removal**

- 35<sup>th</sup> Street – North side of road – possibly have Ken Blommer view for estimate
- 40<sup>th</sup> Street – Trimming of branches by the guard rail.
- 30<sup>th</sup> Street North – Both sides of road.

**David Blommel, Township Engineer – Roads to view**

- 17<sup>th</sup> Street – Udermann area (have Mr. Blommel give the board an estimate to overlay)
- Riviera Road – Should this road be blow patched or a complete overlay.
- Winnebago Road – Estimate for replacement and overlay to the turnaround.

SUPV HEIM MOTIONED TO ADJOURN, SECOND BY SUPV WESTERLUND, MOTION CARRIED 3-0.  
Respectfully submitted, Marlyce L. Plante, LeSauk Township

*Marlyce L. Plante*

LeSauk Township Annual Road Inspection Meeting  
May 12, 2022

The Annual Road Inspection Meeting was called to order by Chairman Dan Heim at 4:00 p.m.

**PRESENT: Supervisors Dan Heim, Jeff Westerlund and Shawn Omann and Clerk Marlyce Plante.**

The Town Board traveled all township roads. Due to the area receiving a record amount of rain, many areas of the township had standing water. Culverts and areas prone to flooding, were especially looked at to ensure good water flow.

61<sup>st</sup> Ave. – Pleasant Dale Addition - Water was found to be standing on 61<sup>st</sup> Avenue neat the 321<sup>st</sup> & 61<sup>st</sup> intersection. This area has a low spot in the roadway, and after a heavier rain, water pools in the low area, but subsides within a day or two.

32074 61<sup>st</sup> Ave. – Potholes that need cold patch – Approximately 3 bags of cold patch.

32158 62<sup>nd</sup> Ave. – All trees have been cut down between the Winter & Barringer properties.

6124 321<sup>st</sup> St. – Borud property – The lilac bushes have been trimmed down substantially which allows easier traffic & pedestrian viewing when maneuvering the corner of 321<sup>st</sup> & 62<sup>nd</sup> Ave.

322<sup>nd</sup> Street – The Board discussed having the City of St. Cloud take over this street since the south side will be in the city of St. Cloud when the Buecker's property is annexed. Some potholes have been filled, possibly by the City of St. Cloud, but several still remain.

6173 322<sup>nd</sup> St. – Several small potholes - Approximately 3 bags of cold patch.

1<sup>st</sup> St. No. – Small potholes near 2583 1<sup>st</sup> St. – Approximately 2 bags of cold patch.

30<sup>th</sup> Avenue – This street is in the poorest condition. The Town Board, along with all other jurisdictions of 30<sup>th</sup>, are working with legislature who have applied for grant funding to reconstruct and upgrade the road.

17<sup>th</sup> St. No. – Udermann area - This area was recently been graded. Supv Westerlund questioned whether this street could be overlayed. It was the consensus that with the heavy farm equipment travel on this road and the high expense to overlay the street, township funds would be better used on other road projects. T

322<sup>nd</sup> St. – This street is in poor condition but has been patched by St. Cloud since the majority of the south side is in the city. There is a lot of traffic on this road, both trucks, cars and farm equipment. Patch and fix as needed.

40<sup>th</sup> St. – Large pothole near 1986 40<sup>th</sup> St. No. – Approximately 4 bags of cold patch. East side of 40<sup>th</sup> is in generally good condition. West side of 40<sup>th</sup> is in Brockway Township.

7<sup>th</sup> Ave. No. – Small potholes near 2606 7<sup>th</sup> Ave – Approximately 2-3 bags of cold patch. This road could be considered for blow patching since many of the potholes are shallow.
